PRO STAND NI MASCHINE

The Zomo Pro Stand Maschine is especially designed for Native Instruments Maschine. It`s the best way to place your Controller directly above a mixer or turntable. The Pro Stand can be arranged in height and horizontal angle. It can be placed on any table just by using four screws. If you are in possession of the optional available base plate, you can also fix the Pro Stand by placing the base plate under Pad Controller. Anyway, you will never have to bore to fix your equipment. Sheer genius and totally cool! It´s Zomo!
