AIR 8.1 BK

8” TWO-WAY PASSIVE SPEAKER WITH COAXIAL WAVEGUIDE AND FIBERGLASS CABINET (BLACK)

Air 8 is an 8" + 1" coaxial speaker with a rigid, lightweight fiberglass cabinet, ideal for premium installations. It delivers detailed, linear sound, a wide 90°x90° coverage, and a peak output of 121 dB, with extended response from 70 Hz to 20 kHz and 95 dB sensitivity (1W/1m). The internal 2 kHz crossover ensures smooth transitions, while the compact design and custom finishes make it perfect for lounge bars, restaurants, clubs, and upscale residential spaces. Includes wall mount and Phoenix connector with Link Out for easy multi-speaker setups.

PRODUCT DETAILS

KEY FEATURES

Compact two-way 8“ coaxial design: the 8” coaxial driver with integrated 1” tweeter ensures a point source of sound, providing a consistent and linear response throughout the frequency range.

Optimized 90° x 90° dispersion: the wide angle of coverage allows even sound distribution in rooms of various sizes, increasing clarity even in acoustically complex situations.

Ideal for fixed installations in upscale environments: with its elegant and discreet design, Air 8 is perfect for bars, restaurants, clubs, lounges, and even upscale residential settings.

Wall bracket included: the system comes with Air 8 mounting bracket for easy and secure installations, with several placement options.
