FLIGHTCASE VC-2 XT - BLACK

0030102125

"The time has come. The transport case on that all DJs have waited is finally there. Zomo VC-2 offers ideal protection by transfer of DJ-equipment. The solid and modern looking case made out of aluminum is stuffed with premium foam in the interior. This guarantees no damage at transfer by fidget about or falling down of the equipment. The 2 security locks at the front take care for the perfect support and not sliding away. Meanwhile the Djing has been moved more and more to the digital level. Almost every DJ is using a laptop. Zomo has the ideal solution for this. Through the 3 elements of the Zomo-case there is an extra shelf for a laptop up to size 17"" Apple MacBook Pro too. From now on the laptop is without any space problems on every place present. The medial element can be used for storage space for cables and other equipment. A comfortable carrying handle as well as a shoulder belt (optional) make it very easy to the DJ to transport the equipment from A to B. A brilliant, modern case with fine new ideas which makes fun at working. Sheer genius and totally cool! It´s Zomo!"
