M250012

HOHNER CHROMETTA 8 HARMONICA, C

With a tonal range of just over 2 full octaves the Chrometta 8 is the smallest instrument in the series. However, don’t let appearances fool you, it is just as versatile as its larger counterparts and is perfect for your first steps into the world of chromatic harmonica. Whatever style of music you’re into, this versatile little all-rounder offers a great place to start playing. And it’s small enough that you can take it with you to practice while you’re out and about.
