VS-BOX 400 - WALNUT

The VS-Box 400 is a practical vinyl storage box in a timeless design. The VS-Box 400 is the largest model of the Zomo Vinyl Storage Collection and ideal for vinyl lovers who want to have their records safely stored. The shelf is made of sturdy MDF wood and laminated with resistant, water-repellent decor. The model is particularly easy to assemble. Thanks to its clear design, the LP Box blends perfectly into any living room. An additional divider is optionally available for further subdivision of the main compartments. This can be used to expand the shelf so that CDs and DVDs can also be stored in it.
