FENDER® AND WRANGLER® PICKS, 351 SHAPE, TORTOISESHELL, (8PCS)

1980351040

A little bit country, a little bit rock ‘n’ roll, our collaboration with the iconic denim label pays homage to daring artists and the denim that shaped their style for decades. Two American heritage brands, the Fender® x Wrangler® line of accessories is the co-headlining tour you didn’t know you needed. These icons, with legacies rooted in authentic self-expression and independence, have teamed up on a collection designed to fit every style and any stage. With great attention to detail, each product is a timeless tribute to both iconic brands and features authentic Wrangler® materials.

Fender® x Wrangler® Tortoiseshell Picks are ideal for any playing style or technique – our classic 351 shape provides easy gripping and a rounded point to reduce string noise. This pick is made from celluloid, a premier pick material with traditional feel and a warm, round musical tone. They also are a perfect fit for your Wrangler® x Fender® pick pocket on select jeans and jackets!
