TELESCOPING BOOM MICROPHONE STAND

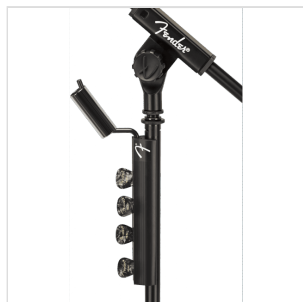

Designed by musicians for musicians, our road-worthy microphone stands are the ideal solution for the guitarist on the go. Featuring a rugged, durable steel construction and custom twist grip clutch components, Fender Mic Stands provide superior stability with fixed placement in any position so you can perform with confidence. Command the stage with these road-tested and reliable stands – the ultimate, long-lasting gigging companion for any professional.

Featuring a strong arm to fix your mic securely in place at all adjustment levels, the Telescoping Boom Mic Stand was engineered to ensure stable positioning throughout extended performances and practice sessions. The custom embossed “F” Fender grip components and height adjustment twist clutch allows for quick, on-the-fly adjustments on stage. The Fender Telescoping Boom Mic Stand also includes a removable pick and slide holder that is easily attachable and detachable. Crafted from durable rubber, this clip-on accessory holds up to 12 picks for quick access and storage. The slide holder accommodates all standard slides and is also removable.
