EVT-2.60-V55.1

# INDOOR LED PANEL FOR COMPOSITE SCREENS FOR RENTAL INSTALLATIONS 2.6MM PITCH 500X500MM

EVT-2.60-V55.1

**The Event Series** is a versatile and high-performance display solution tailored for professional indoor rental applications. Its **2.6mm pixel pitch** ensures exceptional visual clarity, making it ideal for events, exhibitions, and corporate installations where close viewing distances are critical.

Featuring long-lasting, high-quality **Nationstar LEDs**, the panel guarantees consistent brightness, color accuracy, and reliability for demanding environments. The **independent power unit** enhances serviceability, enabling quick and efficient maintenance without interrupting the overall structure.

Engineered for convenience, the panel guarantees **quick installation** and offers layout flexibility, accommodating diverse configurations with ease. **Corner protections** safeguard the LEDs during handling and setup, ensuring durability even in fast-paced rental scenarios.

The **extra-lightweight frame** simplifies transport and assembly, reducing setup time while maintaining structural integrity. The Event Series is the perfect choice for professionals seeking an efficient, robust, and visually stunning display solution.

# INDOOR LED PANEL FOR COMPOSITE SCREENS FOR RENTAL INSTALLATIONS 2.6MM PITCH 500X500MM

## PRODUCT DETAILS

### KEY FEATURES

- LED Module pitch 2.6mm
- Suitable for indoor applications
- Equipped with long lasting high quality Nationstar LEDs
- High refresh rate
- Independent power unit for quick and efficient maintenance
- Quick installation and layout flexibility
- Corner protections
- Extra-lightweight frame for easy transport and installation

### SPECIFICATIONS

| | |
|---|---|
| **Pixel Pitch** | 2.6mm |
| **LED Type** | Nationstar SMD1515 |
| **Module Dimensions (W x H x D)** | 250 x 250 x 17mm |
| **Module Resolution** | 96 x 96 pixel |
| **Cabinet Dimensions (W x H x D)** | 500 x 500 x 78mm |
| **Cabinet Resolution** | 192 x 192 pixel |
| **Cabinet Weight** | 7 kg |
| **N. of modules per panel** | 4 |
| **Brightness** | 800 Nits (average) / 1000 Nits (max) |
