GS6

6" COMPACT HIGH-PERFORMANCE PASSIVE SUBWOOFER

GS6

The GS6 is a compact **6” passive subwoofer**, ideal for **permanent installations** where size, style, and simplicity are a priority. Its **modern, discreet design** fits perfectly in indoor spaces such as retail stores, restaurants, hotels, bars, and homes.

GS6 is specially designed to pair with **GF22, GF42, and GF82** loudspeakers, offering the **perfect low-frequency extension** for your system. Its **symmetrical load circuit** allows for direct connection with most standard speakers.

Thanks to the **integrated low-pass filter**, GS6 connects directly to the **same line as your satellite speakers**, with **no need for extra DSP or EQ**. A quick, streamlined solution for clean and elegant installations. Power it using a GA201 or GA41 amplifier.

Despite its **compact footprint**, GS6 delivers **deep, punchy bass** that enhances any setup—whether for home audio or commercial use.
