DP-22ONYX-MKII-5#307

STRIKING LACQUERED FINISHES MAPLE AND MAHOGANY 5 PCS DRUM SET

The new, redesigned Onyx set, Peace's best selling lacquer finish kit, is better than ever. Still boasting the same sonically potent and desirable features as earlier incarnations, by popular demand the largest tom included with new production versions of the set will be a 14"x14" floor tom with legs-no longer a suspended 14"x12";. Available with chrome or original black trim appointments, either Onyx variant barks with serious tone thanks to the precision crafting that goes into the manufacturing of the maple/mahogany sandwich shells; mounted hardware includes Duotone low-mass, low-profile lugs that allow the shells to sing freely.
