FLIGHTCASE CDJ-13 XT - UK-FLAG

"The Zomo CDJ-13 XT is a light and compact flightcase for all 13 inch devices like the Pioneer DJM-900 NXS2. This flightcase has a detachable lid and an extra large opening at the front, which allows access to your CD drive or the wiring of the mixer when the lid is closed. The cleanly finished interior protects the 13"" mixer or 13"" CD player from damage and provides a firm hold. The two shackle locks can be locked and prevent access by third parties. The comfortable handle guarantees a comfortable transport. For extra comfort you can use the Zomo Shoulder Strap CS (optional), which is attached to two eyes. The Zomo CDJ-13 XT is a professional aluminium flightcase in modern design and high functionality. The price-performance ratio of this Zomo Flightcase is unbeatable."
