P-DDJ-SR2 PLUS NSE

The Zomo P-DDJ-SR2 Plus NSE is a professional, practical flightcase that was designed for the DJ controller Pioneer DDJ-SR2. The clou of the Zomo P-DDJ-SR2 Plus NSE is the extra wide laptop rack, so that you have enough space for a laptop in any size, a mouse or many other useful devices, such as an effect device or a controller. The rack is located with a sliding device above the DJ mixer. This means that the tray can be moved quickly and easily to any desired position. Thanks to the integrated two straps with Velcro fasteners, the Zomo P-DDJ-SR2 Plus NSE allows a secure transport of your laptop, as your computer can be fixed quickly and easily. In this flightcase you can easily and compactly transport a complete setup and quickly put it into operation on site. The surface of the outside is insensitive to abrasion and cigarette burns. In addition, the outer sides are extremely scratch and impact resistant as they are black laminated. The extra wide aluminium profiles and the massive ball corners are also painted in black. In this way, the flight case not only ensures a lastingly attractive, professional design, but also a long service life. The high-quality butterfly catches can be locked with an optional lock and provide a secure hold. Zomo NSE Cases are absolutely road and airworthy. The manufacturing material of all Zomo flightcases of the NSE series is made of particularly robust and resistant 9 mm plywood. With its stylish black design, the Zomo P-DDJ-SR2 Plus NSE (NSE = NIGHT STYLE EDITION) can also score points visually.
