P-DDJ-800 PLUS NSE - FLIGHTCASE PIONEER DDJ-800

0030103289

With the P-DDJ-800 Plus NSE from Zomo you get a robust case for the Pioneer DDJ-800. The P-DDJ-800 Plus NSE extends the popular NSE series (Night Style Edition) with a new equipment case. In addition to its elegant appearance, the equipment flightcase also convinces with its robust construction. So that your high-quality DJ gear is protected from the arduous everyday life on stage, the Zomo Flightcases are extremely suitable for touring. To prevent the DJ controller from slipping, the DDJ-800 Flightcase is equipped with a high-quality interior padding, which protects the device optimally from defects, scratches, other or negative influences. The P-DDJ-800 Plus NSE is not affected by scratches or shocks thanks to the robust laminated 9mm plywood. Thanks to the extra wide, black lacquered aluminium profiles as well as the very massive ball corners the Zomo DJ Case offers a very high resistance. The front cover can be easily and quickly removed before your session. This gives you access to the inputs of the controller even when the DJ Gear is still in the case. We recommend the optional Zomo EA-1 ergonomics adapter to connect the DJ headphones to the DJ mixer in a more material friendly way. Besides the highest professional quality, the advanced design in the night black NSE (= Night Style Edition) makes the Pioneer Equipmentcase a total eye catcher! The practical butterfly snap locks make it easy to unlock and lock and provide an extremely secure hold for the cover. All NSE Equipment flightcases can also be locked with an optional lock.
