DECK STAND VEGAS - WHITE

The new model Vegas enlarges the popular Zomo Deckstand series with a new, elegant and functional product. In addition to the usual main shelf, which accommodates two turntables and one mixer, additional storage areas for Hifi-components, cds, dvds or vinyls have been added beneath the shelf. This combination turns the Zomo Deckstand Vegas into a stylish but also functional piece of furniture. For further division of the storage compartments, the optional accessory "Zomo Divider" can be used. The Zomo Vegas Deckstand has been manufactured from sturdy fibreboard and laminated with resistant and water-repellent decor. The deckstand is available in the colours black, white, zebrano, walnut. It can be assembled easily and is definitely an eye-catcher in your living room.
