GS18

HIGH PERFORMANCE 18" PASSIVE SUBWOOFER

GS18

The GS18 is a high-performance 18" passive subwoofer engineered to deliver deep, powerful bass across a wide range of indoor and outdoor applications. Its weather-resistant birch plywood cabinet ensures durability and reliability, making it the ideal choice for touring events, stadiums, theme parks, auditoriums, clubs, and permanent installations.

With its robust construction and premium components, the GS18 offers an extended frequency response down to 35 Hz and a maximum SPL of 132 dB, delivering tight, powerful low-end performance even in large-scale venues.

GS18 is the perfect companion for KGEAR loudspeakers such as the GH412, GH12, and GH4, enabling the creation of high-power, high-definition audio systems. When paired with KGEAR GA43 and GA46 amplifiers, it ensures optimal power management and precise control.

Reliable, powerful, and versatile, the GS18 is the go-to solution for pro-audio rental companies, integrators, and consultants working in medium to large venues. Its exceptional performance and compatibility with other KGEAR products make it an invaluable asset in any professional audio setup.
