

GF22W

## ULTRA-COMPACT 2X2" FULL-RANGE PASSIVE SPEAKER (WHITE)

### Defined sound in an ultra-compact format

GF22 is a passive full-range column loudspeaker with 2x2" drivers, designed to deliver surprisingly rich bass response compared to other speakers of similar size. Its bass reflex cabinet and optimized driver filtering ensure superior sound quality in a highly discreet form factor.

Weighing just 1.3 kg and featuring a durable ABS enclosure, GF22 is perfect for indoor and outdoor fixed installations in environments such as restaurants, bars, hotels, shopping centers, public spaces, and transportation facilities. Its compact dimensions allow for elegant installations without compromising sound quality.

With a frequency response of 90 Hz to 20 kHz and a wide 90° x 90° coverage, GF22 is suitable for both music playback and speech intelligibility, making it ideal for distributed audio systems or discreet PA setups.

Equipped with a Phoenix connector with relaunch, GF22 can be easily integrated into multi-point audio systems, maintaining clean wiring and high reliability.

## HIGHLIGHTS

### SUPERIOR AUDIO PERFORMANCE IN A COMPACT FORMAT

The **GF22** manages to combine extreme compactness and sound quality, particularly in the low frequency response, thanks to the **bass reflex design** and optimised filtering which allow it to **exceed the typical expectations of a 2" speaker**, making it a unique proposition for applications where **small size and sound quality are both essential**.

### ULTRA-COMPACT FORMAT AND IP54 RATING FOR DISCREET INDOOR/OUTDOOR INSTALLATIONS

Just 60 mm wide, with dust and splash protection—perfect for elegant applications in both public and private venues.

## PRODUCT DETAILS

### KEY FEATURES

Excellent low-frequency output: thanks to the bass reflex cabinet and optimised filtering, it offers more bass than you would expect from a speaker of this size.

Wide coverage (90° x 90°): The symmetrical dispersion pattern makes it ideal for distributed systems in complex or multi-layered environments, ensuring intelligibility and uniformity.

Ultra-compact design: just 60mm wide and weighing 1.3kg, GF22 is extremely discreet and lightweight, perfect for installations in spaces where visual impact must be minimal.

Suitable for indoor/outdoor installations: the resistant ABS cabinet and the IP54 protection degree allow for use in indoor and outdoor environments.

### SPECIFICATIONS

Type	Passive Loundspeaker	
Transducers	2x2" ferrite magnet woofer	
Risposta in frequenza	90 Hz - 20 kHz (-6dB)	
Max.SPL	108 dB	
Rated Power	50 W	
Nominal Impedance	16 Ohm	
Coverage	V. 90°   H. 90°	
Dimensions (WxHxD)	60x590x72 mm (2.36x23.23x2.83 in)	
Weight	1,3 kg (2,87 lbs)	
Material	ABS	
IP rating	IP54
