NRO-7 59 BASSGUY

OVERDRIVE

The NUX '59 Bassguy from the Reissue series captures the legendary tone of the **Fender '59 Bassman** amp. Featuring three intuitive controls - GAIN, MASTER, and VOLUME - users can fine-tune their sound to perfection.

What sets the '59 Bassguy apart is the unique **JUMP switch**, which faithfully simulates the iconic **'Jumpering' effect** of the Fender '59 Bassman. With a simple flip of the switch, players can easily toggle between two distinct tones, offering versatile options for different styles and preferences.

PRODUCT DETAILS

KEY FEATURES

- Simulates the legendary Fender '59 Bassman amplifier
- Classic knobs and panel design
- Jump toggle, Normal and Bright channel 'Jumpering' simulation
- 100% Analog circuit
- True bypass

SPECIFICATIONS

Input impedance	1M Ohms
Output impedance	820 Ohms
Power	9V battery or external 9V adaptor delivering regulated minimum 200mA (DC 9V)
Dimensions	121(L)x77(W)x 48(D)mm
Weight	250g
