BB CLARINET DARK SERIE LIGATURE (EBANITE/ABS MOUTHPIECE)

It all started in 1974, with the original Rovner Dark, an innovative design that changed the way woodwind players thought about ligatures. Today's Next Generation Rovner ligatures represent the next wave of Rovner innovation, featuring patented Mass-Loaded Technology™ and unique Resonating Ribs™. Rovner Products are technologically advanced to help you produce nothing less than musical magic! It is especially enjoyed by the classical player, and despite many imitators, continues to be our best-seller. For decades it has also been the "go-to" ligature for music educators, knowing they can recommend it with complete confidence that a Rovner ligature is just the thing to help developing players move to the next level of performance. Of course, the Rovner ligature you choose will be based on your own set-up, playing style and preferred sound.
