VS-RACK VINYA 50 - CHROME

The Vinya line from the VS series by ZOMO is the latest generation of vinyl stands. Thanks to its elegant, timeless design , the Vinya 50 cuts a fine figure in any living room, study or studio and keeps your record collection safe and secure at all times. The beloved vinyls stand in an upright position in the shelf and thus offer protection against deformation , caused by incorrect storage. The vinyl shelf has extra wide feet that ensure a stable and secure stand , even when completely filled with records. The deformation-resistant, powder-coated steel gives the shelf the necessary stability, so that you will enjoy your vinyl collection for a long time. The Vinya series is available in 3 different versions:
