P-DDJ-RB PLUS NSE - FLIGHTCASE PIONEER DDJ-RB

0030103133

The Zomo P-DDJ-RB Plus NSE is an innovative, practical flight case, especially designed for the Pioneer DDJ-RB DJ Controller. Furthermore the Zomo P-DDJ-RB Plus NSE has an extra wide laptop compartment, so that you have enough space for a laptop of any size, a mouse or many other useful devices, e.g. an effect device or a controller. The shelf is located above the DJ mixer with a sliding device. This means that the tray can also be moved quickly and easily to any desired position. Thanks to the integrated two straps, which have Velcro fasteners, the Zomo Flightcase P-DDJ-RB Plus NSE allows a safe transport of your laptop, because your computer can be fixed quickly and easily. In this flightcase you can easily and compactly transport a complete setup and put it into operation on site. The surface of the outside is insensitive to abrasion and cigarette burns. In addition, the outer sides are extremely scratch and impact resistant, as they are laminated in black. The extra wide aluminium profiles and the solid ball corners are also painted in black. This means that the flight case not only ensures a permanently attractive, professional design, but also a long service life. The high-quality butterfly catches can be locked with an optional lock and offer secure hold. Zomo NSE Cases are absolutely road and airworthy. The production material of all Zomo Flightcases of the NSE series is made of especially robust and resistant 9 mm plywood. With the stylish black design the Zomo Flightcase P-DDJ-RB Plus NSE (NSE = NIGHT STYLE EDITION) can also score optically.
