

SD-401

14X5,5 PRISTINE SIGNATURE SERIES SOLID BRONZE SNARE

A black chrome plating lends his lightly warmer voice to the scream of the 1.2mm thickness 5.5"x14" solid brass shell, creating a timeless tone of unsurpassed clarity. The custom etching featured on the outer shell is hand-tooled with unyielding precision, and the ensemble is crowned by the addition of die-cast hoops.
