

TriMotion

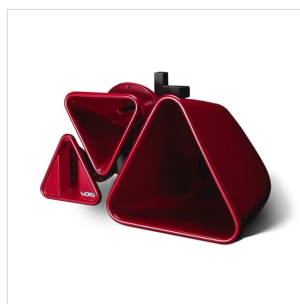

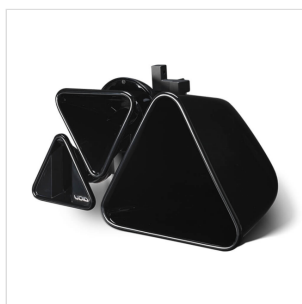

# THREE-WAY DESIGN LOUDSPEAKER WITH 15", 8" AND 1.5" DRIVERS (CUSTOM COLORS AVAILABLE UPON REQUEST)

The Tri Motion is more than a loudspeaker—it's a statement of style and sonic excellence. Designed for premium spaces such as high-end clubs, designer restaurants, and VIP lounges, the Tri Motion stands out with its controlled, high-impact performance and visually captivating triangular form.

Its three-way configuration—featuring a 15" woofer, 8" midrange and 1.5" HF compression driver—delivers crystal-clear reproduction across the spectrum. Triangular waveguides enhance directivity control (90°H x 60°V), ensuring precise sound coverage and improved audience focus.

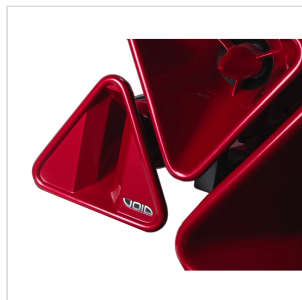

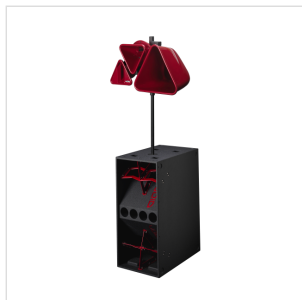

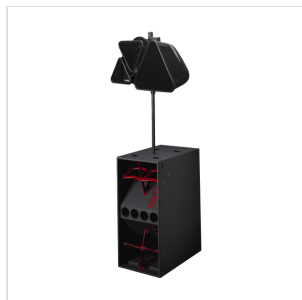

Thanks to its internal electronic HF protection, the Tri Motion maintains consistent reliability even at high outputs. Its low-resonance fibreglass composite enclosure ensures clean sonic output, while the integrated mounting system offers both flown and floor-mounted options.

With custom colour options available, it effortlessly blends into any high-design environment—serving as both a sonic centerpiece and a visual signature.

## HIGHLIGHTS

### LOW-RESONANCE FIBREGLASS COMPOSITE CONSTRUCTION

The use of **fibreglass material** ensures a **rigid and stable enclosure**, minimizing cabinet resonance and contributing to **clearer and more accurate audio reproduction**.

### THREE-WAY CONFIGURATION WITH 15", 8" AND 1.5" DRIVERS

The combination of a 15" woofer, an 8" midrange and a 1.5" compression driver enables **extremely detailed and dynamic reproduction** throughout the entire frequency range. This configuration ensures a coherent and balanced response with deep bass, natural midrange and precise high frequencies, making it ideal for applications where **definition and sonic clarity are paramount**.

---

## TRIANGULAR WAVEGUIDES

Designed for direct dispersion control, the triangular profile waveguides **ensure an even and predictable acoustic distribution** with a 90° horizontal and 60° vertical pattern. This geometry **reduces unwanted reflections** and concentrates acoustic energy on the audience, being particularly effective in difficult or high-density environments.

---

## CUSTOM COLORS AVAILABLE UPON REQUEST

In addition to the 3 iconic Void brand colors -red, white and black- TriMotion can be produced in several other custom colors (the colors visible in the image are examples for illustrative purposes)

## PRODUCT DETAILS

### KEY FEATURES

- Built-in electronic protection on high frequency: ensures reliability and operational safety even during prolonged use at high levels.
- High sound pressure (up to 141 dB peak): capable of handling large volumes accurately and without distortion, suitable for high-impact settings.
- Integrated suspension and mounting system: designed for versatile installations, it allows both suspended and floor-mounted use with appropriate accessories.

### SPECIFICATIONS

Frequency Response	120 Hz - 20 kHz ±3 dB
Efficiency	LF 107 dB 1W/1m   HMF 110 dB 1W/1m
Crossover Points	LF 120 Hz and 500 Hz   HMF 500 Hz - Passive 1.4 kHz
Nominal Impedance	LF 8 Ω   HMF 8 Ω
Power Handling	LF 700 W AES   MHF 250 W AES
Maximum Output	135 dB cont, 141 dB peak
Driver Configuration	1x 15" LF   1x 8" MF   1x 1.5" HF compression driver
Dispersion	90°H x 60°V
Protection	Internal Electronic Control
Connectors	2x 4-pole speakON NL4
Weight	47.1 kg (103.8 lbs)
Enclosure	Fibreglass composite
Rigging	Integral mounting system
