

UP-1

UP-1 PORTABLE SURFACE-MOUNT PIEZO PICKUP FOR GUITAR AND OTHER INSTRUMENTS

Our lightest and smallest stick-on guitar pickup, the versatile UP-1 passive piezo attaches safely to just about anything that vibrates.

UP-1

This universal pickup comes in a handsome, lightweight wooden housing that makes it ideal for guitarists and cajón players looking for an easy, effective solution to bring their sound to an amp. In addition to being a surface-mount guitar pickup, UP-1 can be used for harp, drums and percussion.

This instrument pickup comes with a double-sided adhesive disc and enough PowerTack adhesive for multiple applications, and a detachable 1/8" to 1/4" cable that allows the pickup to remain in place during storage
