

DD225

PORTABLE DRUM KIT WITH 8 TOUCH-SENSITIVE RUBBER PADS AND 2 PEDALS

DD225

The Medeli DD225 digital drum kit is equipped with eight touch-sensitive pads and two pedals.

The pads are made of rubber and therefore, provide more durable impact characteristics and a noticeable reduction in internal noise.

The two pedals offer full control of the bass drum and hi-hat.

DD225 offers a total of 600 high quality sounds which include drums, percussion, expressive acoustic and electronic sounds from all over the world, which together with the 110 preset songs allow you to range and have fun among many musical genres, playing without problems even with just your hands in percussion mode.

A built-in EQ and reverb are available to adjust the drum sound to your liking.

The Aux-In jack allows you to connect an external player such as a smartphone or an MP3 player and then play along with your favorite music.

The recording function, the possibility of connecting to a computer, the headphone output, the compact size and many other functions make this drum kit perfect for playing at home or for practicing in confined spaces.
