FLIGHTCASE UNI-1 XT - BLACK

The Zomo Flightcase UNI-1 XT is a high-quality transport case for many DJ CD players and DJ effect devices. The robust and optically very modern case made of aluminium sheet is filled with high-quality foam inside. This protects the DJ equipment optimally during transport and prevents the device from slipping around. The flight case protects the contents permanently from damage. The Zomo Equipmentcase Uni1-XT has a comfortable carrying handle and two eyes for an optionally available shoulder strap. This way the equipment can be transported easily and comfortably.
