FLIGHTCASE RANE TWELVE NSE

The Zomo Flightcase Rane Twelve was designed especially for the Rane Twelve. The case is extremely robust and protects your controller from dust, scratches and other damages. Zomo NSE Cases are absolutely road- and airworthy. Like all Zomo flightcases of the NSE series, this modern Zomo case is also made of especially robust and resistant 9 mm plywood. It not only promises real professional quality, but also knows how to convince visually. The timeless, black design is absolutely stylish and is a real eye-catcher! The outer sides are black laminated and therefore extremely scratch and impact resistant as well as insensitive to abrasion. Extra wide aluminium profiles and the massive ball corners, which are also painted in black, guarantee both stability and longevity.
