MIDI KEYBOARD CONTROLLER (37 KEYS)

HIGHLIGHTS

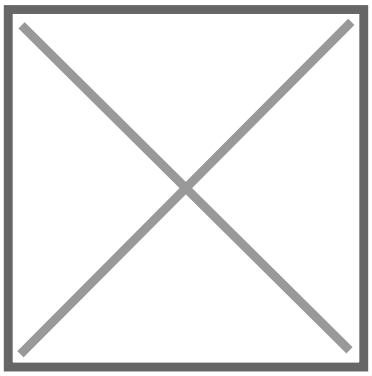

SEAMLESS DAW INTEGRATION

Bundled with the latest Cubase 13 LE, the NTK-37 effortlessly maps to most DAW software, offering quick and automatic matching. This ensures a perfect harmony between the physical controller and your digital audio workstation, including faders, signal transmission, and channel or pan controls. Simply select your preferred DAW on the device, follow the setup guide, and enjoy instant compatibility with various VST instruments for real-time creation and mixing.

BUILT-IN MOUSE TRACKPAD AND INTUITIVE CONTROL FEATURES

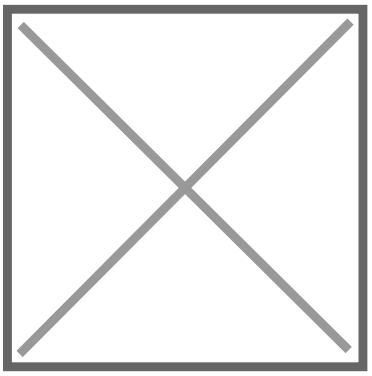

Enhance your production efficiency with the built-in mouse trackpad, ideal for both stage performances and studio compositions. Essential features like note repeat and an arpeggiator cater to popular music styles, including pop, hip-hop, and electronic. The onboard MIDI mode allows quick CC controller matching between hardware and virtual instruments, with customizable layouts that you can save and recall as needed.

NTK-37

MIDI KEYBOARD CONTROLLER (37 KEYS)

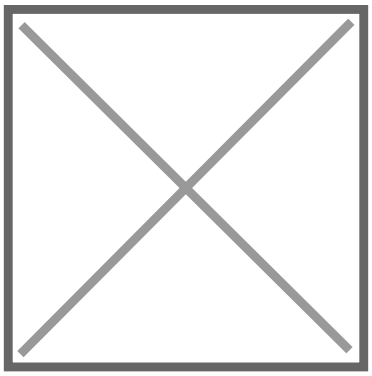

TOTAL CONTROL, INFINITE POSSIBILITIES

The lightweight NTK-37 is equipped with customized key weights for a satisfying touch and creative inspiration. Its Channel Aftertouch feature lets you link any desired sound effect (EXP, MOD, PITCH, etc.) to the aftertouch response, enhancing the authenticity and dynamic range of your sound creation.

VERSATILE PERFORMANCE AND QUICK PRESETS

Switch instruments effortlessly between drum pads and keyboard with channel changes, enabling dual-hand control of two VST instruments. Utilize the NUX NTK Editor software for rapid device preset management, or download supported preset files for quick control of various DAWs and virtual instruments.
