

GP8A

PA ACTIVE COLUMN SYSTEM WITH 8" SUBWOOFER, 4X2.5" PAT® ARRAY, BUILT-IN MIXER AND BLUETOOTH/USB/SD MEDIA PLAYER (BLACK)

ACTIVE PA COLUMN SYSTEM

This active PA column system has an 8" powered subwoofer unit and 3 modular column elements featuring a 4x2,5" K-array™ PAT® (Pure Array Technology) array module.

Plug-and-play design features a mixer 2 mic/line inputs, a stereo AUX input, Bluetooth connectivity and USB player.

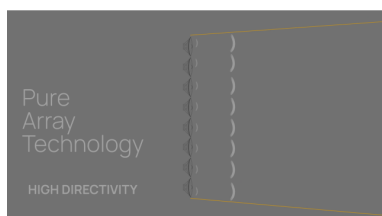

Thanks to its compact format, GP8A is the perfect companion for your gig, cocktail party, event or your loud karaoke session at home.

GP8A

PA ACTIVE COLUMN SYSTEM WITH 8" SUBWOOFER, 4X2.5" PAT® ARRAY, BUILT-IN MIXER AND BLUETOOTH/USB/SD MEDIA PLAYER (BLACK)

HIGHLIGHTS

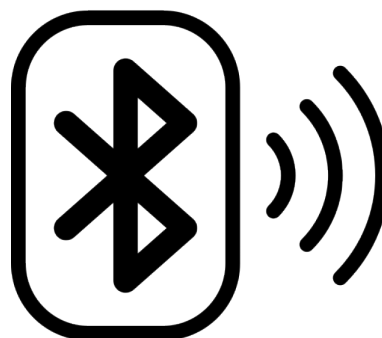

ACCURATE SOUND DISPERSION WITH K-ARRAY™ PAT® TECHNOLOGY

The **K-array™ PAT® (Pure Array Technology)** built into the GP8A system provides **uniform and directional sound coverage**, enhancing audio clarity even in acoustically challenging or crowded environments.

PAT® (Pure Array Technology) uses vertically aligned drivers to generate a cylindrical wavefront, providing **uniform coverage up to 140°** with **directional and coherent dispersion** that minimizes floor and ceiling reflections. Perfect for challenging spaces, it significantly enhances **speech intelligibility and musical clarity**.

WIRELESS STEREO SETUP VIA BLUETOOTH 4.2 TWS

With **Bluetooth 4.2 TWS (True Wireless Stereo)** support, the GP8A allows **wireless pairing with a second GP8A unit**, creating a full stereo system. This feature delivers **wider sound coverage and easy setup**, eliminating the need for extra cabling.
