FLIGHTCASE A-OMNI-DUO NSE

030103513

The Flightcase A-Omni-Duo NSE from Zomo offers a robust transport solution for the **AlphaTheta OMNIS-DUO**. This **high-quality equipment case** expands the popular NSE series (Night Style Edition) with another useful component. It impresses with its exceptional durability and is ideal for the tough DJ routine.

The elegant design in deep black not only gives the Zomo Flightcase an attractive appearance but also underscores its professional quality. The interior is padded, reliably protecting the player from **damage, scratches, and other external influences**.

The Flightcase A-Omni-Duo NSE is made of **laminated 9mm plywood**, making it particularly resistant to scratches and impacts. The extra-wide, black-painted aluminum profiles and sturdy ball corners provide additional stability and durability.

The high-quality **butterfly snap locks** ensure that the lid remains securely and tightly closed, while also allowing easy opening and closing. For added security, the case can *optionally* be equipped with a lock to prevent theft. Zomo equipment cases are ideal for tour use and withstand even the most demanding DJ requirements.

Even during operation, the **front cover** of the DJ case can be easily **removed**, facilitating access to the DJ equipment. For an even more stress-free connection of the DJ headphones to the mixer, we recommend the optional Zomo angle adapter EA-1.
