FLIGHTCASE SET-3900 PLUS NSE

The Zomo Set-3900 NSE is a Set Case for two Pioneer CDJ-3000 DJ Player and 1x Pioneer DJM-900NXS2 DJ Mixer and impresses with a lot of great details. The Set-3900 NSE enlarges the product range of the popular NSE (= Night Style Edition) from Zomo by a new equipment case. This equipment case was made to handle the heavy DJ everyday life without any problems and impresses with a very stable processing. For appealing optical accents the especially strong, black lacquered aluminium profiles and massive ball corners provide the equipment case with a very high durability. To prevent the player from sliding back and forth, the CDJ-3000 equipment case is equipped with excellent internal padding that reliably protects the device from scratches, knocks or other damage. Cigarette burns, heat and abrasion cannot harm the Set-3900 NSE, thanks to the high quality laminated 9mm plywood. Zomo Equipment flight cases are suitable for touring and can easily handle all DJ-uses. The Pioneer Equipment Case in the night black NSE (= Night Style Edition) offers not only professional quality but also inspires with a classic look - in any case an eyecatcher! Helpful butterfly catches hold the lid extremely tight and allow for easy unlocking and locking. For higher protection against long fingers all NSE Cases can be locked with an optional padlock.
