UP82-BK

ENTRY-LEVEL UPRIGHT DIGITAL PIANO

UP82-BK

Medeli expands its upright piano lineup with the UP82-BK, a distinguished entry-level digital piano that continues the legacy of the UP81-BK with significant improvements to both aesthetics and audio output.

This model sports an improved finish, providing not only a sleek and refined appearance, but also a touch of fine craftsmanship that, together with the satin black finish, enhances its presence in any environment.

With an amplifier that has been upgraded to deliver 25% more power, the UP82-BK delivers a richer, more resonant sound, making every performance more captivating and engaging.

This improvement complements the piano’s already impressive features, such as a fully weighted Graded Action (GAK) keyboard for an authentic playing experience and a realistic 3-pedal unit, all housed in an eye-catching cabinet design.

The UP82-BK continues to support the essential elements that made the UP81-BK beloved by musicians, including versatile USB-Audio connectivity for recording directly to cell phones or computers, simplifying the creative process for songwriters and performers.
