GA41

COMPACT 4-CHANNEL HIGH-EFFICIENCY CLASS D AMPLIFIER

GA41

The KGEAR GA41 is a compact 4-channel high-efficiency Class D amplifier featuring a Powersoft™ power module and DSP processor. With a 2IN-4OUT design delivering up to 150W RMS per channel at 4 ohm, this versatile amplifier is the perfect solution for small to medium audio applications.

Remote Programmability and Customization

GA41 can be remotely programmed using the Powersoft™ ArmoníaPlus software via Ethernet connection, providing precise control and customization for your audio system. With 4 selectable presets that can be adjusted to your needs and recalled by a physical button on the rear panel, GA41 offers a tailored audio experience every time.

Modular Design for Space Efficiency

With its modular design, GA41 amplifier allows for efficient use of space in your installation. Up to 3 GA41 units can fit within just 2 rack units using the G-RACK accessory, ensuring a streamlined setup.

Ideal for a Variety of Applications

KGEAR GA41 amplifier is designed for high-performance permanent installations in venues such as restaurants, bars and pubs, auditoriums, conference rooms, and residential settings.

COMPACT 4-CHANNEL HIGH-EFFICIENCY CLASS D AMPLIFIER

HIGHLIGHTS

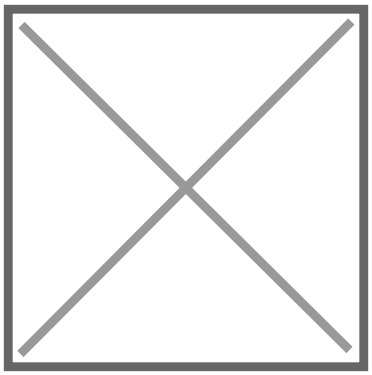

INTEGRATED POWERSOFT™ TECHNOLOGY WITH ADVANCED DSP FOR PROFESSIONAL-GRADE AUDIO PERFORMANCE

GA41 features a state-of-the-art Powersoft™ amplifier module and integrated DSP processor, delivering audio performance and system control expected from top-tier professional systems. Through the ArmoníaPlus™ software interface, users can easily manage EQ, protections, routing, and presets—ensuring pristine, customizable sound for any installation environment.

COMPACT MODULAR DESIGN FOR FLEXIBLE INSTALLATIONS

Compact and modular setup: up to 3 GA41 units in just 2U, enabling clean and flexible installation in multi-channel or distributed systems.

PRODUCT DETAILS

KEY FEATURES

- Flexible I/O routing with up to 150W @ 4? per channel and 4 user-adjustable presets accessible via rear panel button.
- Built with stainless steel for strength and reliability, weighing only 2.6 kg—perfect for demanding installations.
- Compatible with international voltage standards, GA41 works reliably even in areas with fluctuating power conditions.

SPECIFICATIONS

Type	4-Channel Class D
Output Power	4x150 W @4?
Impedance	4?
Connections	2x Combo jack-XLR female line; 1x RJ45; 2x SpeakOn 4 pole
Built-In DSP	Yes
Remote Control	Yes, through Armonia software
Protections	Thermal Protections (Power limiting - Thermal Shutdown); Short-circuit/overload output protections; stationary high frequency protection; peak limiter; RMS limiter; frequency dependent RMS limiter; Clip limiter
Operating Range	85-245 VAC
Dimensions (W x H x D)	145x90x418 mm
Weight	5.7 lb (2,6 kg)
Material	Stainless steel
