CYPRESS SINGLE-COIL ACOUSTIC SOUNDHOLE PICKUP NATURAL

Designed by pickup guru Tim Shaw and engineered specifically for use with bronze guitar strings, the Cypress single-coil acoustic pickup brings new life to your acoustic performances. This proprietary ceramic-magnet design features a Fender innovation: the Field Diffuser, which tempers the magnetic field around the treble strings for sweet high end and balanced output across the strings.

PRODUCT DETAILS

KEY FEATURES

Installation hardware included

Ceramic magnets

DC Resistance: 2.3k ohms

Includes 15' cable with ¼" plug

Color: Natural

Configuration: Single Coil

DC Resistance: 2.3K

Orientation: Universal

Style: Acoustic
