

GP8AB

# BATTERY POWERED COLUMN PA SYSTEM BLUETOOTH BLACK FINISHING

## COMPACT BATTERY POWERED COLUMN PA SYSTEM

This battery powered PA column system has an 8" active subwoofer unit and a 4x2,5" array module that uses K-array™ PAT® (Pure Array Technology).

GP8AB features a new grille and sub enclosure look, as well as a totally re-designed column connection system that improves stability and reliability.

Built-in mixer with 2x mic/line inputs, 1x stereo AUX input, Bluetooth connectivity with TWS Pairing and USB/SD media player. Two separate volume knobs allow you to separately manage the sub and top levels for optimal sound in every application.

GP8AB is so compact and light that can be carried by one person, and a cover+bag set is available as an accessory for more protection and easier handling.
