

BATTERY POWERED COLUMN PA SYSTEM BLUETOOTH BLACK FINISHING

COMPACT BATTERY POWERED COLUMN PA SYSTEM

This battery powered PA column system has an 8" active subwoofer unit and a 4x2,5" array module that uses K-array™ PAT® (Pure Array Technology).

GP8AB features a new grille and sub enclosure look, as well as a totally re-designed column connection system that improves stability and reliability.

Built-in mixer with 2x mic/line inputs, 1x stereo AUX input, Bluetooth connectivity with TWS Pairing and USB/SD media player. Two separate volume knobs allow you to separately manage the sub and top levels for optimal sound in every application.

GP8AB is so compact and light that can be carried by one person, and a cover+bag set is available as an accessory for more protection and easier handling.

BATTERY POWERED COLUMN PA SYSTEM BLUETOOTH BLACK FINISHING

HIGHLIGHTS

PLAY IT ANYWHERE

Thanks to the new Li-Ion battery, GP8AB can play for more than 7 hours with a single charge.

NEW LOOK

GP8AB features a totally new grille and subwoofer top design.

BATTERY POWERED COLUMN PA SYSTEM BLUETOOTH BLACK FINISHING

EASIER SET-UP

The connecting system has been re-designed to provide more stability, longer life and easier setup and disassembly.
