GH-BASE

STACKING HARDWARE FOR UP TO: TWO GH412 OR EIGHT GH12

This product is used **to pair and mount** up to **two GH412 or eight GH12 units in a single vertical configuration**. This accessory is designed to ensure secure and **stable placement** of the devices, allowing space optimization in professional installation environments. The **stainless steel** material lends **strength and durability**, while the black coloring makes it stylish and easily integrated into various types of audio systems or facilities. Typically, this type of hardware is used for a more compact and uncluttered configuration **when multiple devices need to be mounted in the same rack space**.

GH-BASE

PRODUCT DETAILS
