COMPUGILIST® COMPRESSOR/DISTORTION

Compression and distortion are an undeniable duo. We combined those two essential effects into one pedalboard-friendly chassis: meet the Compugilist® Compressor/Distortion. The two discrete, all-analog effects are independently switchable, allowing you to use them solo or stacked. The straightforward controls make it easy to dial in your sound to taste.

Designed by our in-house team of experts, the Compugilist® Compressor/Distortion is an all-original Fender circuit. The chassis is crafted from lightweight, durable anodized aluminum, and the Amp Jewel LED gives your pedalboard the classic Fender look. The switchable LED-backlit knobs show your control settings on a dark stage at a glance.
