## LS-50 LAPTOP STAND

The Zomo LS-50 Laptop Stand is an useful and fortunate accessory for mobile DJs and musicians. Most DJ-Desks are not offering much space to place own equipment, the LS-50 is the perfect solution to place a lot of equipment on minimal space. Laptops, Controllers, Mixer and CD-Players can be placed easy and fast with the Zomo Laptop Stand LS-50. All established Laptops and other equipment can be used in combination with the LS-50. The height and angle can be adjusted perfectly in just a few handles by opening four screw connections (without tool). This makes it even more flexible and faster. The Zomo LS-50 laptop stand can be fixed easily, like his predecessor on almost every flight cases, as a clip version on all desktops or set as an on-the-top version to the DJ booth, or slide under the mixer or turntable. Sheer genius and totally cool! It's ZOMO
