P-DDJ-SB3 PLUS NSE - FLIGHTCASE PIONEER DDJ-SB3

0030103256

The Zomo P-DDJ-SB3 Plus NSE is an innovative, practical flight case, especially designed for the Pioneer DDJ-SB3 DJ Controller. The Zomo Flightcase also has an extra wide laptop compartment, so that you have enough space for a laptop of any size, a mouse or many other useful devices, such as an effects device or a controller. The shelf is located above the DJ mixer with a sliding device. This means that the tray can also be moved quickly and easily to any desired position. Thanks to the integrated two straps, which have Velcro fasteners, the flight case allows a safe transport of your laptop, because your computer can be fixed quickly and easily. In this DDJ SB3 case you can transport a complete setup very simply and compactly and put it into operation quickly on site. The surface of the outside is insensitive to abrasion and cigarette burns. In addition, the outer sides are extremely scratch and impact resistant, as they are laminated in black. The extra wide aluminium profiles and the solid ball corners are also painted in black. This means that the flight case not only ensures a permanently attractive, professional design, but also a long service life. The high-quality butterfly catches can be locked with an optional lock and offer secure hold. Zomo NSE Cases are absolutely road and airworthy. The production material of all Zomo Flightcases of the NSE series is made of especially robust and resistant 9 mm plywood. With the stylish black design the Zomo Flightcase P-DDJ-SB3 Plus NSE (NSE = NIGHT STYLE EDITION) can also score optically.
