

TIMT-MIM-4

MIMOSA WOOD PICKS - PACK OF 4

Mimosa is CNC Milled from the very best quality timber then hand sanded and hand polished to give them their amazing shine and smoothness. Timber Tones unique shape is roughly based upon the classic 351 design, however they are 2.4mm thick where you hold them, chamfering down to 0.7mm at the playing tip. Mimosa is the hardest timber that we supply as part of the Acoustic pack and tin, as such it will add some degree of brightness to the tone of most Acoustic Guitars.
