DJ-707M PLUS NSE - FLIGHTCASE ROLAND DJ-707M

The Zomo DJ-707M Plus NSE Case is especially made for the Roland DJ-707M DJ Controller. The DJ-707M Plus NSE in 0030103302 the noble NSE (Night Style Edition) inspires with the deep black optics. The stylish equipment case is not only extremely stable but also completes every tour without any problems. Manufactured for the rough tour use, the Zomo DJ cases are absolutely suitable for touring and protect your valuable DJ gear against damages, drinks or falls. To prevent the controller from sliding back and forth the DJ-707M flightcase is equipped with a practical inner padding which protects the equipment reliably against damages, scratches or other negative influences. The DJ-707M Plus NSE Equipment Flightcase is made of sturdy laminated 9mm plywood, which makes it resistant to scratches, abrasion, heat and cigarette burns. For noble and attractive details the extra strong and black lacquered aluminium profiles and stable ball corners provide the DJ Case with a high durability. The bar in the front can be easily and quickly removed during the performance, even if your DJ gear is still inside the DJ Case. As an optional accessory we offer a practical Zomo EA-1 angle adapter. So you can plug the DJ Headphones even easier into your mixer. Beside the strong, professional quality the noble design in the deep black NSE (= Night Style Edition) makes the Roland Equipment Case a safe eyecatcher! The ingenious butterfly fasteners make it easy to open and close and guarantee an extremely tight fit of the lid. All NSE cases are also lockable with an optional lock.
