

PULSE NSS-4

MINI IR LOADER STOMPBOX

Pulse (NSS-4) is a mini IR-Loader pedal with 3 different modes including **Electric guitar CAB**, **Bass CAB**, and **Acoustic guitar IR**.

You can switch the types by tapping the tap switch. Besides that, you can use Pulse as a silent practice tool (1/8" phone jack) in the end of your pedalboard and even as a USB recording interface onto DAW.

You can use Pulse edit software to load any 3rd party IRs.
