

ESSENTIAL B1

ANALOG BASS SYNTH & SEQUENCER

A purely mono synth, designed for classic acid sounds. Donner added 2 onboard effects to make the sound more aggressive and distinctive. Most importantly, the sequencer workflow has been optimized, making the Essential B1 more intuitive to use.

ESSENTIAL B1

ANALOG BASS SYNTH & SEQUENCER

HIGHLIGHTS

EASY AND INTUITIVE WORKFLOW WITH SILICON HAPTIC PADS

The B1 synthesizer has 128 presets to which 128 user-programmable presets are added—all geared to help you compose your music more intuitively.

Modern tactile silicone pads with backlighting and changing color offer advantages over traditional keyboard design. In addition to being a sequencer, the B1 synthesizer can also function as a MIDI controller, allowing you to play live synth bass lines using the pads.

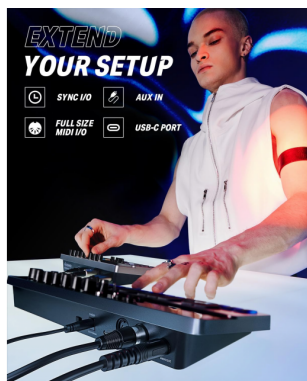

SATURATION AND DELAY EFFECTS

The B1 sequencer allows you to achieve classic deep bass tones as well as distorted sounds and delay effects. It will make you feel like one of the famous EDM or Hip-Hop DJs or producers.

ANALOG BASS SYNTH & SEQUENCER

EXPAND YOUR SET UP IN A FLEXIBLE WAY

Through the USB-MIDI connection, the B1 synth can connect to your DAW and function as a MIDI controller. And then you have Sync I/O, Aux In and USB-C port. This allows you to compose music more quickly and flexibly.
