DRUM MICROPHONE SET

HIGHLIGHTS

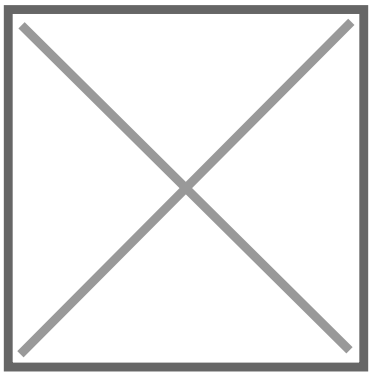

DTP 640 REX - KICK DRUM MICROPHONE WITH TWO CAPSULES.

The DTP 640 REX is a dual-element microphone for drums and percussion instruments. It consists of two phase-aligned capsules, a condenser and a dynamic one to create exactly the sound you want. Additionally, you can switch between three sound characteristics for even more flexibility for studio and live applications.

MTP 440 DM – SNARE DRUM MICROPHONE. PUNCHY SOUND FOR YOUR SNARE.

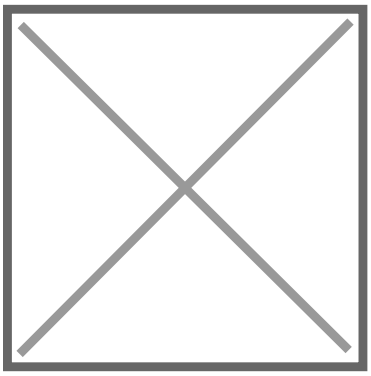

The MTP 440 DM is a dynamic snare microphone perfect for getting a punchy snare sound. It earned high praise by being the favorite snare mic of the extraordinary session and live drummer Kenny Aronoff (Paul McCartney, Lady Gaga, Pharell Williams, etc.).

DRUM MICROPHONE SET

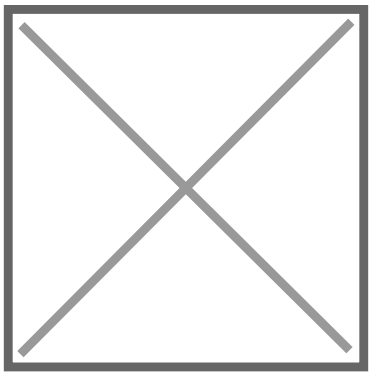

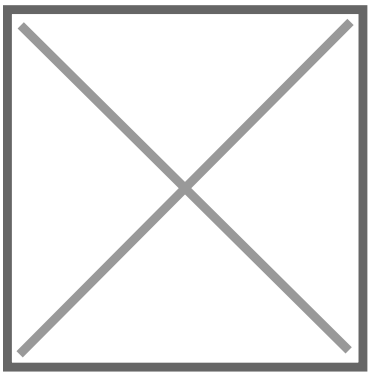

DTP 340 TT PERFECT FOR TOMS AND PERCUSSION

The DTP 340 TT is a dynamic microphone designed to accurately capture the sound of drums and percussion instruments. Its supercardioid polar pattern ensures maximum isolation of your instrument for studio and live applications.

LCT 140 AIR STEREO PAIR OVERHEADS WITH HIGH FLEXIBILITY AND PERFECT STEREO.

The LCT 140 AIR stereo pair lets you switch between two sound characteristics - AIR for a record-ready sound and FLAT for highly authentic recordings. This is the only stereo pair of pencil microphone you will need - 2 sound modes, low-cut and pre-attenuation, lightweight, professional studio sound.

MIL-SPEC TRANSPORT CASE A PREMIUM CASE FOR STORING AND TRANSPORTATION.

The BEATKIT PRO comes in a super-sturdy mil-spec transport case ideal for storing and transportation. All microphone mounts, windshields, and clamps are included, and the latter don’t need to be unmounted for storage, which is extremely convenient on tour. Never was there a more complete pro package.
