DECK STAND POWERKIT PK2 (INT.)

This intelligent and easy to install electronic kit Zomo PowerKit2 equips the Deck Stand Miami or Berlin with an abundance of sockets and includes a luxurious audio wiring. With the help of this kit your Miami MK2 or Berlin MK2 deckstand will be equipped with 8 sockets (7 of them usable) and 2 Mono XLR-connections as well as 2 RCA stereo connections. At the right foot end, the setup is supplied with power and connected to the PA. Directly under the worktop, this set gives your desk the power and audio connections you need to wire up the entire DJ set neatly and neatly. The connection of the upper and lower units is made in the housing and is not visible from the outside. The power supply is centrally switchable. This means that all devices can be switched on and off with only one switch.
