SET-750 NSE - FLIGHTCASE 2X XDJ-700 + 1X DJM-350

The robust Zomo 700 NSE Flightcase is the perfect transport and storage solution for two Pioneer XDJ-700 and the Pioneer DJM 350 Mixer. As the Pioneer XDJ-700 DJ Controller, as an inexpensive alternative to the top Pioneer models, enjoys more and more popularity among DJs, Zomo took up this trend and designed a suitable case. As this case contains the affordable Pioneer DJM 350 mixer as a mixer, it is ideal for use at home or at small events. As usual with Zomo, the case is exclusively made of high quality materials. The outer cladding is made of 9mm laminated plywood, reinforced with robust aluminium profiles and almost indestructible ball corners. The case is also easy to transport thanks to the comfortable carrying handle. The Zomo Set 750 NSE is not only absolutely robust, but also shines with its hip black NSE (Night Style Edition) design.
