

MUSICSAFE

EARPLUG KIT FOR MUSICIAN INCLUDING 2 ATTENUATION FILTERS AND TRAVELBOX

MusicSafe® offers hearing protection to musician, with earplugs that fit your hear . MusicSafe® contains two different and exchangeable sets of music filters with outstanding sound characteristics, providing medium and high attenuation rate to suit every situation. Depending on the instrument you are playing, your position on the stage or the kind of music you are playing or listening to, you can always chose and will find the attenuation that suits you most. These special music filters guarantee an optimal protection against only the harmful noises while at the same time you can perfectly enjoy the music. The plugs are made of a durable, soft and flexible material. Because of your body heat the plugs adapt to the shape of the auditory duct within a few minutes and guarantee an excellent fitting form and comfort.
