DJ-808 NSE - FLIGHTCASE ROLAND DJ-808

The Zomo Flightcase DJ-808 NSE was designed especially for the Roland DJ-808. The case is extremely robust and protects your controller from dust, scratches and other damage. Zomo NSE Cases are absolutely road and airworthy. Like all Zomo Flightcases of the NSE series, this modern equipment case is made of especially robust and resistant 9 mm plywood. It promises not only real professional quality, but is also visually convincing. The timeless, black design is absolutely stylish and represents a real eye-catcher! The outer sides are black laminated and therefore extremely scratch and impact resistant as well as insensitive to abrasion. Extra wide aluminium profiles and the solid ball corners, which are also painted in black, guarantee both stability and durability.
