SCX-1800 PLUS NSE - FLIGHTCASE DENON PRIME SERIES

The Zomo Flightcase SCX-1800 has been specially designed for the Denon Prime Series. The chic and robust case is another product of the well-known Night Style Edition. Zomo NSE Cases are made of 9mm laminated plywood, which is joined with indestructible ball corners and aluminium profiles. The outer sides are black laminated and therefore extremely scratch and shock resistant. In addition, the surface of the outside is insensitive to abrasion and cigarette burns. The Prime devices are thus optimally protected and easy to transport. A removable lid, high-quality butterfly fasteners and a sturdy carrying handle complete this high-quality transport case. The Zomo SCX-1800 is a superbly padded flightcase that offers the perfect protection for your DJ equipment while travelling from one gig to the next. In the rear part there is enough space for various cables and plugs. Sheer genius and totally cool! It's Zomo!
