PRO STAND UNI-L FOR 1X LAPTOP - SILVER

0030101808

Zomo Pro Stand Uni-L is suitable for 1 x Laptop, 1 x Midicontroller, 1 x effect device or similar device (not included in the delivery). Zomo Pro Stands are the best solution to install your valuable CD-player space-saving directly above the mixer or above the turntables. It is possible to position up to 2 CD-player easily and compactly. The professional Zomo equipment consoles are designed absolutely tough and for a longtime mission. Even the mission in the mobile use can`t be unable to harm something to the Pro Stands. The Zomo Pro Stands are adjustable in the height and tilt as well as in the right-left-rotation. So the equipment can be fixed in every desired position to make it possible to get more fast access to the player and optimal view to the displays. If required the position can be adjusted quickly and easily with a few handles to changed needs because the most important settings are adjustable over quick release fastener. Moreover the assembly plates for the single player are replaceable and therefore for a switch of the equipment quickly and beneficial adjustable. The Zomo Pro Stand can be installed at the bottom by 4 screws on every random tabletop. The optional available baseplate makes a simple montage possible such as below the turntables without any necessary holes and is especially imagined for the mobile use. The premium powder coating is resistant against scratches and other negative influence of the environment. All around a sophisticated and still innovative product. Sheer genius and totally cool! It´s ZOMO!
